

Medicaid Compliance Program Code of Conduct

The School District has a legal obligation to exercise diligence, care, and integrity when submitting Medicaid claims for payment for services rendered. Honest, fair, and accurate billing practices shall be maintained.

Employees, non-employees and contractors involved in the provision of, or claiming Federal Medicaid financial compensation or reimbursement for, school and preschool supportive health services are required to comply with the governing Federal and State statutes and regulations and School policy and procedures. Failure to do so may result in adverse consequences to them.

Medicaid claims shall be submitted only for necessary services provided, as supported by appropriate documentation. Billings should not be duplicated to create overpayment. Proper and timely documentation of services provided must be maintained. Claims will be considered only when such documentation is maintained and available for review.

Compensation for any employee or service provider shall not include any financial incentive to make claims. No employee or service provider will knowingly and willfully offer, pay, solicit or receive any remuneration, directly or indirectly, in return for referrals or to induce referrals, or to arrange for or recommend goods, facilities, services or items for which payment may be made under the Medicaid program.

Services will not be billed unless the provider has certified that the services were provided, and appropriate documentation completed in compliance with Federal and State laws, regulations, and School District policy and procedures.

When a provider submits such certification, the provider is certifying that there is sufficient documentation to support the claim and that: (1) all services reported were personally provided or personally supervised; (2) such services were necessary and appropriate; and (3) the rendering of such services, the coding or charging for these services, and the documentation of such services have all been performed in accordance with Federal and State laws and regulations and School District policy and procedures.

Speech services shall not be billed unless those services are provided by a licensed speech pathologist or provided under the direct supervision of a qualified speech pathologist. Any individuals working under the direction of a qualified speech pathologist must be given contact information to enable them to directly communicate with the supervising speech pathologist as needed during treatment.

Transportation may not be billed unless the provider can clearly document the child's attendance on the vehicle for eligible services on the specific day being billed.

Counseling services may not be billed unless provided by a professional whose credentials allow that same service outside of school.

The School District will attempt to ensure that all claims for services are accurate, properly documented, and correctly identify the services performed or provided.

All employees and service providers are required to report suspected fraud or abuse or other noncompliance problems. Failure to report suspected problems, assisting or participating in fraud, abuse or other non-compliant behavior, or encouraging, directing, permitting or facilitating such activities whether actively or passively will result in disciplinary action.

Suspected fraud, abuse or other non-compliance problems must be reported to the Compliance Officer. If the Compliance Officer is not available, the report should be made to the Superintendent of Schools. If the suspected violation is on an organization wide level or by the Administration, the report should be made to the President of the Board of Education.

Monies obtained from any Federal or State funded healthcare programs that clearly represent overpayments are monies which must be returned promptly
