# "Connected, Engaged, Healthy"

The North Country FSCS Newsletter Edition 3 of 5

Youth & Family Programming Highlights

As the new year begins, our middle school and high school students continue to engage in learning opportunities that allow them to build their social skills, understanding of how different cultures celebrate holidays, and the importance of physical activity.

### **Rudeness Spreads Like Wildfire**

Scientists were curious — could something as simple as rudeness be caught, like a bad cold? It turns out it's more infectious than they'd ever thought and pretty startling too. It only takes one offhand, rude comment to spark this infectious chain reaction. When we're on the receiving end of rudeness, our brains kick into overdrive. We start connecting the dots, and one idea triggers the next. This influences how we act, nudging us to toss out a rude comment of our own causing the ripple effect to continue.

The impact of kindness reaches far beyond simple gestures; it shapes the atmosphere around you. In your personal life, kindness fosters stronger relationships and a deeper sense of fulfillment.

Within your community, acts of kindness create a ripple effect, inspiring others to contribute and build a more supportive, connected society.

## Who is your Counseling Assistant?

The role of a Counseling Assistant is to provide social and life skill instruction in small groups to students as well as support their social/emotional/behavioral health. They also support consistent school attendance efforts by being a point of contact for students and parents.
